

**PRODUCT
SPECS**

Model	UO-6602AW
Series	PURIFIC Water Dispenser
Voltage	110V / 220V ***
Hot Power Consumption	750W + 500W
Cold Power Consumption	145W
Volume	Hot 3L, Warm 2L, Cold 1.5L
Capacity	Hot 10.2L/hr, Cold 5.6L/hr
Dimensions (mm)	W310 x D550 x H510 (including Drip Tray)

*Voltage can be customized based on requirement.
Hot Water 90°C±10°C ; Cold Water 15°C±10°C*

4 IN-BUILT RO STAGE 『ACUO』 NEW PATENT FILTERS
QUICK-FIT
easy & convenient DIY replacement

FILTER	NAME	LIFESPAN
UF-591	Smicron P.P. Filter	3-6 months
UF-592	Blocked AC Filter	3-6 months
UF-504	RO Membrane	2 years
UF-594	Granular AC Filter	12 months

**Lifespan varies depending on usage and quality of water source.
**Hollow membrane filtration system available.*

PURE & CLEAN - EVERY DROP FILTERED & STERILIZED!

HIGH TEMP. STERILIZATION

"Instant Heat" design ensures complete sterilization of all water.

FILTER, BOIL, CHILL

Automatic Water Inlet → Filter → Sterilize → Store & Chill, all-in-one design for everyday convenience!

PURE CONVENIENCE

FILTER USAGE

Check and reset the filter usage anytime.

RE-BOIL FUNCTION

Re-Boil the Hot Water anytime at the touch of a button.

FILTER REPLACEMENT NOTIFICATION *NEW GENERATION*

Set Replacement Notification for up to 5 filters separately (unit in months, usage calculation based on time and dispensed volume).

PRODUCT FEATURES

PURE ECO - DUAL SLEEP MODE & ENERGY SAVING

INTELLIGENT SCHEDULED SLEEP MODE

Customize Sleep Mode ON / OFF time to suit your daily schedule and maximize energy saved! Temporarily exit Sleep Mode to resume usage without interrupting the pre-set schedule, PURIFIC will automatically go back to Sleep Mode after 15 minutes in idle.

MANUAL SLEEP MODE

Enter Sleep Mode anytime for up to 60 hours. Can be set alongside the Intelligent Scheduled Sleep Mode.

IR DETECTION

When not in usage, the display interface displays time only to minimize energy consumption. Automatically detects when you approach and turns interface into control panel.

Water Outlet protected by Antibacterial Stainless Steel!

PURE SAFETY

304 GRADE STAINLESS STEEL

Cold, Warm and Hot Tank in 304 grade stainless steel for best quality.

HOT WATER LOCK

Safety design to prevent scalding accidents.

COLD & WARM WATER PROTECTION

When Cold and Warm Water is above 50°C, dispense must be unlocked to ensure user safety (this function can be turned off).

SAFETY CHECK DESIGN

Performs automatic self-check to ensure all functions are operating safely. Disconnects power and water supply when experiencing malfunction to protect from potential

Water Leakage

Compressor Error
